Clean, regrease and adjust the bottom bracket. New unit fitted at cost of parts.

Suspension

Suspension service – Starting at £40
Please contact me for a firm price. Prices vary due to the complexity of different models and the cost of service kits.

Repairs

I can offer a free quote for any other work needed.

New bike build - £40

Most mail order bikes come disassembled. I can build the bike and set up gears and brakes to ensure they function properly. I will also check all bolts cables and tyre/suspension pressures and can help you set correct saddle height and position.
